

MC MIX CLOUD

MC MIX brings all key steps of digital colour matching together in one connected, always up-to-date environment.

From Colour Measurement to the Ready-for-Use Mix

All steps connected in one seamless digital workflow.

1

A6 Spectrophotometer

Fast and easy spectrophotometer setup. Take colour measurements wherever you need.

2

MC MIX Cloud

Measurement data is transferred directly to MC MIX Cloud and is available in real time on any compatible device.

3

Designed for clear workflows, intuitive operation and greater efficiency.

Mixing Formula / Colour Adjustment

Smart search for the best-matching mixing formula, with quick colour adjustments when required.

4

Mixing Scale

Precise weighing based on the mixing formula transferred directly from MC MIX.

5

Ready-for-Use Mix

Consistent colour matching and reproducible results every time.

Why MC MIX Cloud?

Benefits that make a real difference to your business.

FASTER MIXING FORMULA SEARCH

Find the best-matching mixing formula faster and make targeted adjustments when required.

INTUITIVE OPERATION

Fewer clicks, clear process steps and a more efficient workflow.

NO USB DRIVES

Mixing formulas and data are transferred digitally via Web Service.

EVERYTHING IN ONE CONNECTED SYSTEM

MC MIX Cloud, the spectrophotometer and the mixing scale are connected in one integrated system.

SEAMLESS DATA TRANSFER

Measurement data is transferred quickly and securely between connected system components.

ALWAYS UP-TO-DATE MIXING FORMULAS

Centrally maintained data ensures that the latest mixing formulas are always available.

GREATER PROCESS TRANSPARENCY

Reports and real-time data provide greater transparency and support informed operational decisions.

LOWER COSTS. GREATER EFFICIENCY.

Less rework, lower material consumption and higher productivity.

Secure Cloud Infrastructure

Encryption, data backups and controlled access help protect your data.

Discover the Benefits of MC MIX Cloud

One integrated platform for more efficient processes, precise results and greater control in your mixing room.

Greater precision and process reliability

Consistent, accurate results you can trust.

Greater transparency and meaningful reporting

Clear data and reports to make better decisions.

Scalable and adaptable to the needs of your business

A solution that grows with your business.

Greater process consistency and reduced material waste

Optimise your process and save resources.

COLOUR SERVICE WE RESPOND WITHIN 48 HOURS

Our Color Lab is available to support you.
We respond to colour enquiries within
48 hours from the moment of submission.
